Global celebrations of World Pharmacist Day takes place on September 25th each year. The purpose of this day is to raise awareness of the contribution of the pharmacists for the betterment of public health. On September 25, 2024 P.G Institute of Medical Sciences the department of pharmacy of **GOPSAI AVINANDAN SANGHA** celebrated World Pharmacists' Day, a day to recognize and promote the contribution of pharmacists to global health improvement.

The objective of this webinar was to aware students and pharmacy professionals with various responsibilities and challenges associated with effective role of pharmacists in transformation of Global Health.

With the invaluable support of the Patron Dr. Pravas Ghosh (Chairmen, P.G.I.M.S.); Convener Dr. Karunamoy Bhattacharya (Principal, I.S.T.); Organizing Secretary Dr. Biplab Kumar Chakra (Principal, P.G.I.M.S.); Joint Secretary Mr. Tapan Chakraborty (T.P.O. of P.G.I.M.S.); Coordinators Mr. Nilanjan Adhikari (O.I.C. & Asso. Prof. Dept. of Pharmacology, P.G.I.M.S.) and Mr. Samyadip Singharoy (Asso. Prof. Dept. of Pharmacology, P.G.I.M.S.

The staff and students had a great time celebrating Pharmacist Day in 2024. The introductory speech was given by Dr. Biplab Kumar Chakra (Principal, P.G.I.M.S.). After the introduction, our eminent speaker Prof. (Dr.) Tapan Kumar Chatterjee gave a keynote address at the start of the event. The subject for this year's Pharmacist Day, "**Building ADR Reporting Culture for Patient Safety**" was stated by him.

During this event Prof. (Dr.) Tapan Kumar Chatterjee sir discussed about adverse drug reaction (ADR). ADRs can cause everything from minor side effects like dermatitis or nausea to serious side effects including organ damage or anaphylaxis. They may be unexpected (hard to predict) or predictable (associated with the pharmacological activity of the medicine).

He talked about Monitoring the effects of pharmaceuticals and ensuring drug safety depend on the timely reporting of adverse drug reactions, Determination the level of severity, assembling pertinent data about patient and ADR, Method for Reporting, Patient safety, Types of ADR, medication error.
